

MILLAR DRAFTING DESIGN & MANAGEMENT

MDDM is a design, drafting and project management consultancy based in Townsville. Since 2000, MDDM has proudly served Queensland's heavy industry, sugar milling, mining and commercial sectors.

At MDDM, we offer high-quality consultancy during every stage of a project—from our initial on-site scanning to solution design and construction. Our team of experienced designers and drafters create precise 3D models and detailed drawings using CAD software.

MDDM is committed to delivering results that are accurate, safe, cost effective and timely. We ensure that our solutions are RPEQ certified and founded on multidisciplinary knowledge by working closely with engineering consultants, construction firms and fabricators.

Advanced 3D laser scanning

for millimetre-accurate documentation and photorealistic point cloud creation.

Detailed 2D and 3D design and drafting

solutions created by experienced specialists you can trust.

Reliable on-site assistance and project management

to meet tender, safety and cost management requirements.
